Windermere

**We love what we have here in
Windermere and Bowness!**

But if you've ever thought this place could
be, do, or look better, or that our two towns
could work more closely together...

... then join the growing number of
local businesses taking direct action
to improve our area.

We want to create a world-class vision and
consider the practical steps that will enhance,
shape and protect our area for the future...

**...and we want YOUR HELP
to make this happen!**
